Investment Objective
The objective of the Fund is to provide capital growth and risk exposure in line with global equity markets. The Fund invests across different asset classes to provide the opportunity for long term growth.

Fees
Investment management and administration fees have not been included in the performance figures and would have the effect of reducing the performance figures shown. Please check the investment section of your scheme booklet for details on these charges.

Past performance is not a guarantee of future performance
Performance: monthly Fund returns are based on the percentage change in the net asset value per share, after adjusting those values to include the reinvestment of dividends, interest and capital gain distributions. Monthly returns are linked geometrically to determine quarterly and annual returns. Gross returns are calculated by adjusting the monthly net return to exclude Administration, Trust and Custody fees. The figures do not reflect the initial (sales) charge paid by individual investors.
Standardised Performance: Performance figures are shown on a mid-to-mid basis, inclusive of net reinvested income and net of the annual management charge and all other fund expenses. The figures do not reflect the initial (sales) charge paid by individual investors.

SEI’s strategic allocations are based on our long-term market expectations and are derived from our capital market assumptions (which are reconsidered every 3 years). In the short-term, we may over or underweight these views as part of our tactical allocation to try to take advantage of short-term opportunities.

- For further details of the risks, please refer to the Fund's prospectus.

Important Information

Investments in SEI Funds are generally medium to long term investments. The value of an investment and any income from it can go down as well as up. Investors may not get back the original amount invested. Additionally, this investment may not be suitable for everyone. If you should have any doubt whether it is suitable for you, you should obtain expert advice.

This Fund may invest substantially in a combination of other SEI and third-party funds as well as additional manager pools based on asset classes. These manager pools are pools of assets from the Fund that are separately managed by investment managers monitored by SEI. One cannot directly invest in these manager pools.

No offer of any security is made hereby. Recipients of this information who intend to apply for shares in any SEI Fund are reminded that any such application may be made solely on the basis of the information contained in the Prospectus. This information should not be relied upon by the reader as research or investment advice regarding the funds or any stock in particular, nor should it be construed as a recommendation to purchase or sell a security, including futures contracts. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. The Fund, or some of its underlying assets, may hold derivatives or borrow to invest. This can make the Fund more volatile and investors should expect above-average price increases or decreases.
