Factsheet 10 – Topping up your pension benefits

You may wish to increase your benefits by paying additional contributions into an authorised pension arrangement. The Cambridge University Assistants’ Defined Contribution Pension Scheme (CUADCP) allows you to pay Additional Voluntary Contributions (AVCs) to do just that.

INCREASING YOUR BENEFITS BY PAYING AVCs

On joining the CUADCPS, your Employer will pay 5% of your Pensionable Salary into your DC account each year. You are not required to pay any contributions into your DC account. However, you are required to pay 3% of your Pensionable Salary towards your CRB pension in the Cambridge University Assistants’ Contributory Pension Scheme (CUACPS).

While there is no requirement for you to pay into your DC account, you should consider making additional contributions because it is tax efficient and will lead to a higher pension when you retire.

If you decide to pay AVCs into your DC account, these contributions will be invested in a fund of your choice along with the regular 5% contribution from your Employer.

AVC contributions will be subject to the Annual Allowance limit described below.

For more details on how Defined Contribution benefits work please refer to Factsheet 3 – Defined Contribution Basics

How do I set up my AVCs?

If you wish to start paying additional contributions into your DC account, you must give the Pensions Section at least a month’s written notice of your intention and let them know how much you want to pay in. You can make payments either as a lump sum or in regular monthly instalments which are deducted from your salary.

Once set up you can increase or reduce your AVCs as your circumstances change. Again, you need to contact the Pensions Section with one month’s written notice if you wish to change the level of your AVC payments.

HMRC ALLOWANCES

Her Majesty’s Revenue & Customs (HMRC) sets limits on the amount of pension you can build up each year and on the total pension you can receive when you take your benefits. These limits, which are known as the Annual Allowance and the Lifetime Allowance, are described below.

Annual Allowance

The Annual Allowance is the annual limit on the value of pension benefits you can earn each year and still receive tax relief.

The Annual Allowance is currently £60,000.

Lifetime Allowance

The Lifetime Allowance (LTA) is the limit on the amount you can take from your pension savings before you’re charged tax. Currently, the LTA still applies and is set at £1,073,100 but may be higher if you have an LTA protection. From 6 April 2023 the LTA tax charge was abolished, but you may still need to pay some tax depending on how you take your benefits in excess of the LTA. It is your responsibility to check whether your total retirement savings exceed the Lifetime Allowance. You will be able to obtain a quotation of your benefits shortly before retirement from CUACPS.

If you require details of the annual increase in the value of your pension please contact the Pensions Section at the address below:
