Past performance is not a guarantee of future results. Investing involves risk including the risk of loss of capital. Performance returns for periods of less than one year are not annualised. The performance includes the reinvestment of dividends and other corporate earnings and is calculated in GBP. Please note the historic index returns for a number of benchmarks have been restated by FTSE. The historic benchmark index returns contained within this factsheet are the restated historic benchmark index returns. The fund’s returns are unaffected by this restatement. The calculation method for value added returns may show rounding differences.

When the Fund is closed according to its official Net Asset Value (NAV) calendar but, nonetheless, a significant portion of the underlying security prices can be determined, a Technical NAV is calculated. Past Performance indicated herein has therefore been calculated using a Technical NAV when required, as well as the official NAV of the Fund as at each other business day for the relevant period. Any spreads disclosed are indicative only and are subject to the discretion of the investment manager, based on market conditions at the time of transaction.
